□

I wish that the world was without poverty, and every child born was loved and cared for.

I wish that all children were free from neglect and abuse.

I wish every child was safe and happy.

I wish every child could go to sleep in a bed & wake up to a breakfast.

I wish that all children who are suffering could be brought home to the Happy House.

Mama Sue

With such a large family of ages from 1 year to 16 years, we are always in need of so many things.

For our babies we need pampers, creams, soap, vaseline. etc. Everything you need for your babies we need for ours.

For our older girls sanitary pads and teenage bras.

Short white & black socks for school for all children plus knickers and underpants are always

needed

Clothing Lightweight summer clothing, shorts and t-shirts for the boys, dresses or skirts and tops for the girls are ideal. Stretchy hairbands (plastic goes brittle in the sun and soon breaks).

Hair clips & slides

DVDs & CD Rom Educational for maths, spelling etc. French & computer skills. Also, football and aerobics.

Right now, at the top of our shopping list are school V-neck jumpers in our uniform colour, bright red for both our girls and boys,

We know there are many of you who like to know what is needed, so that you can help us to get it. And both Asda and Matalan (pic right) have bright red jumpers in stock in their school uniform ranges at the moment. So if you would like to help us build up a store, we would be so grateful. Any size from age 3 to 16 would come in for one of our children.

It shouldn't cost too much to post a jumper direct to the Happy House either - the address is Sue Hayward's Happy House, PO Box 796, Watamu, Kenya, East Africa.

Thank you. The links for the jumpers that would be just the job are: Asda (from £3)

P.O. Box 796.

Watamu.

Kenya

East Africa.

Last year, Dawn Heather White in North Ireland threw out a £3 challenge to her colleagues asking them to buy clothing to the value of £3 in the summer sales for a Happy House child. Everyone took it to heart and we received dozens of items of beautiful clothing which ensured each child had a new outfit for Christmas. Maybe you and your friends would like to help in this way. Any size always fits somebody in the Happy House Family

Mama says: "Until our children came to us most had lived in rags and had certainly never had new clothing, so having lovely new clothes means so much to them. They get so excited when they have a new t-shirt, shorts or dress and can't wait to see how they look in it. "To our children who were living in poverty or neglect, Christmas and birthdays were just another day - another day living in the shadow of fear, hunger or abuse.

"Now they are no longer live with shadows. They are safe, happy, healthy, confident and, above all, loved. Having a family Christmas, with a tree, trimmings and a visit from Santa, makes magical memories for each and every child.

"You can help to make a child smile, by sending just one small gift.

If you are visiting our family, we would be grateful of help with our weekly food shopping. Uncle Billy is only too pleased to help and advise.

billy@childrenofwatmu.net

Thank you all for caring, it is due to your kindness and generosity that makes our work with the children possible.
